The Danish bookmarked in this special field of Christian literature, translated into Danish is limited, because of the comparable small population of Denmark to the English book world. With those readers in mind, I have over the years read, and made an abridged translation of twenty-five works, mainly from the publishers mentioned above, without knowing, how to offer my translations for public reading. **EDP-** has now made a **www** distribution possible, - "*with a click- of your finger.*"

In 2003, I made the author and the publisher of the book, *The Principality and Power of Europe*, an unexpected offer of an abridged translation. But it seemed at the time, as the book had been on the English bookmarked for several years, it had become "out of date." It is still on my list, even if some of it has become history, or perhaps especially for this reason, yet so much more, worthwhile reading.

Through the Danish list of **25 book-titles**, the authors and their publishers, can still be reached. It is my sincere wish that the books even by this introduction, may reach new readers of the original versions, and promote later publications. (se, the *Danish* booklist **for download.**)
